- To restore pride and hope to our communities;
- To spark a cultural renaissance that will put us on the "creative" map;

## Civic Engagement

The Civic Engagement Task Force promotes civic participation among 40 Belowers in several ways. We offer programming on topics of interest to our members, both to educate on timely issues, and to spark action.

We foster discussion among our members and build connections with a wide range of organizations in Central New York. Our board initiative connects volunteers with nonprofit boards, government committees, and community groups.
